

**Abstract****DUPLEX PRINTING**

5 A method of printing double sided documents on a printer device, said  
method comprising: formatting said document into a form suitable for printing  
onto first sides of a plurality of media sheets in a single operation; generating a  
set of user instructions for instructing a human user to manipulate said plurality of  
media sheets and enter said sheets into said printer device; and printing said set  
of user instructions.
